

United Way of the National Capital Area mobilizes all sectors of the community to work together with one goal in mind – helping to improve the lives of children and families by reducing disparities and increasing equity. We address the needs of our communities by focusing on three key pillars of impact – health, education and economic opportunity.

60,623

community members served over the last year

 **HEALTH**

\$8.3M+

Invested in the community across all programs focused on health, education and economic opportunity

RECOVERY

During these unprecedented times, your United Way was there to respond to the disruption from COVID-19. Adapting to a new normal means providing services that respond to unique needs. United Way NCA provided equitable access to resources for community members who needed them most. With a primary focus on equity in the areas of health, education and economic opportunity, United Way NCA continues to support families and individuals with essential needs paired with workforce training that are the building blocks for success. Our powerful network of five Financial Empowerment Centers (FECs) throughout the region provide a range of services that equip individuals with the job skills necessary for their households to gain greater financial stability. As we continue to respond to the needs of our community, we are focusing on integrating services and coordinating partnerships through our place-based strategy. United Way NCA truly believes that **when none are ignored, all will thrive.**
