The Labor Landscape is Challenging for ALICE Workers

Financial hardship is not equally distributed. By total number, groups with the largest population of households below the ALICE Threshold tend to also be in the limited, unemployed, and retired categories. However, when looking at the proportion of each group that is below the ALICE Threshold, it is clear that some groups are more likely to be at risk for financial hardship.

Households in Poverty: Prince George's County, Maryland, 2021

- There were some differences in financial hardship by household type and age of householder.
- By total number, groups with the largest population of households below the ALICE Threshold tend to also be in the limited, unemployed, and retired categories. However, when looking at the proportion of each group that is below the ALICE Threshold, it is clear that some groups are more likely to be at risk for financial hardship.

The Cost of Basics Outpaces Wages

There were also differences in financial hardship by household type and age of householder.

- By total number, groups with the largest population of households below the ALICE Threshold tend to also be in the limited, unemployed, and retired categories. However, when looking at the proportion of each group that is below the ALICE Threshold, it is clear that some groups are more likely to be at risk for financial hardship.

Financial Hardship Has Changed Over Time in Prince George's County

- The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or college or retirement. In 2021, household costs in every county in Maryland were well above the Federal Poverty Level, but below the ALICE Threshold. In 2019, household costs were above the ALICE Threshold for every county in Maryland.

Financial Hardship is Not Equally Distributed

- Financial hardship is not equally distributed. By total number, groups with the largest population of households below the ALICE Threshold tend to also be in the limited, unemployed, and retired categories. However, when looking at the proportion of each group that is below the ALICE Threshold, it is clear that some groups are more likely to be at risk for financial hardship.

The Labor Landscape is Challenging for ALICE Workers

- ALICE is a low-wage worker who is employed — households that earn more than the Federal Poverty Level, but less than the basic cost of living and work in the modern economy and includes housing, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or college or retirement. In 2021, household costs were above the ALICE Threshold for every county in Maryland.

If any portion of eligible, single or non-eligible households in Prince George's County have completed the Labor Landscape assessment in a year, or a significant proportion of all full-time working parents are below the Federal Poverty Level, at-risk workers are more likely to be at risk for financial hardship.
